

My custom configuration:

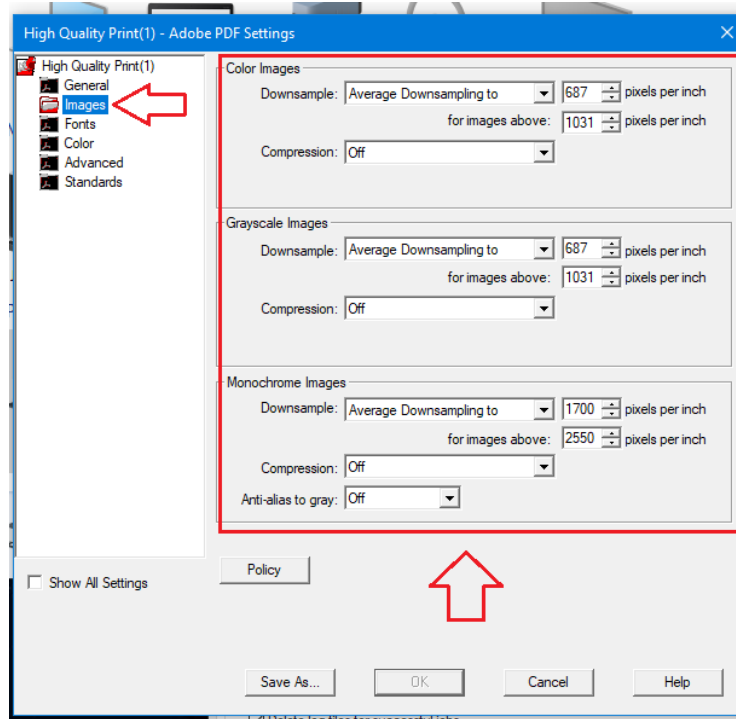

1. Open “Control Panel”
2. Click: Hardware and Sound > Devices and Printers

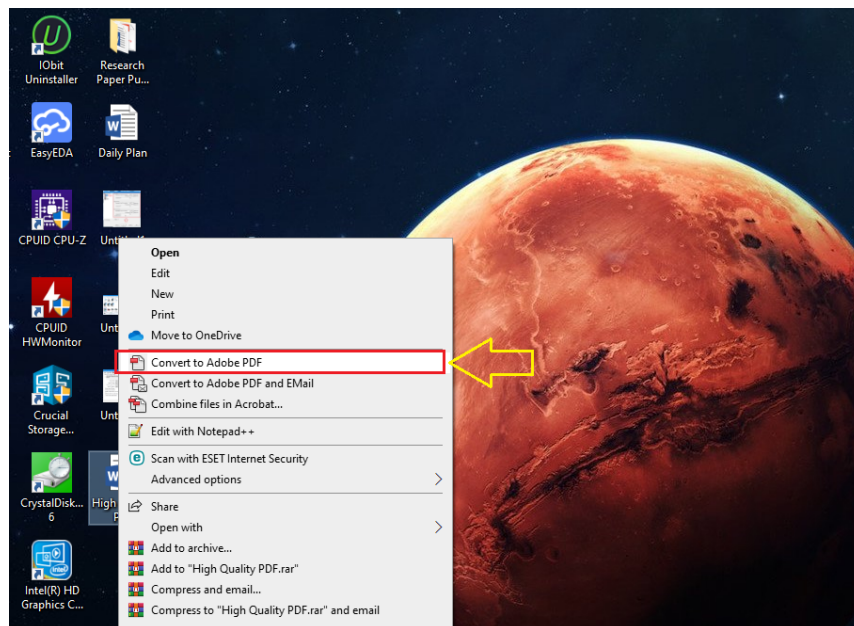

3. Right click on “Adobe PDF” , and choose “Print preferences”
4. Change “Default setting” to **High Quality print** and then choose **Edit**.

5. Replace the “Images” settings according to the information shown below:

6. After editing “Images” settings, then press “Save as”. The new setting will be saved as: “High Quality Print (1)”. Then click “OK”.
7. Now, **for pdf conversion**, right click on the .doc or .docx file and choose “Convert to Adobe PDF”.

That's it!
